

Please note: this is a BSL tour with no spoken English that is aimed at deaf, hard-of-hearing BSL users and fluent friends.

THE CANAL, NEAR THE WATER WITCH

1

MONAD

BY ANASTASIA ISACHSEN (NORWAY)

Projected onto a giant mist of water, Monad unites the elements of life: fire, air, water, and earth and presents a circle as a symbol of time, the perpetual motion of the universe. Monad creates a sense of wonder and reflection about our chance for a new beginning. One-way entry only via Penny St bridge or the iron bridge close to the Water Witch.

CASTLE GATEHOUSE

2

GARLAND THE GATE

BY LAURA SPARK

Enter into Lancaster Castle and meet this year's festival theme - The Art of Science. Experience a pageant of scientific endeavours about the natural world.

From the micro to the macro, cells to stars, our universe is made of wonder.

LANCASTER LIBRARY

14

A KIND OF MAGIC

BY SEVERI HAAPALA (FINLAND)

What can we create with bottled air?

Will the glow of the coals create heat, and will the heart-shaped cloud eventually form from smoke, steam, haze, or magic? And is there really no smoke without fire, or is it just a trick of the light? Plus the Library will be an Aladdin's cave of illuminated surprises and a café!

THE DUKES GALLERY

13

WELCOME TO LUNASHIRE

BY YOU'RE MOST WELCOME - TOM DIFFENTHAL & LAUREN PAIGE DOWLING

Step into a VR experience and be transported to a futuristic moon settlement. Explore the vibrant youth culture of the 60s - reimagined on the moon, but with a distinctly northern flavour!

DALTON SQUARE

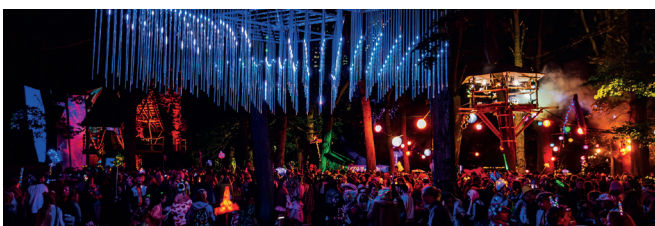

12

IMPRINT

BY NOVAK

To celebrate Standfast&Barracks' centenary year, NOVAK creates a vibrant canvas, revealing the hidden world of the renowned local company.

The projection mapping display will showcase their rich heritage, skilled workforce, and globally acclaimed fabrics, offering a rare glimpse into this iconic factory.

LANCASTER CASTLE

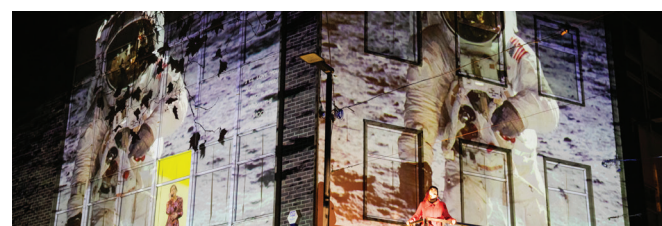

2

SOMNIUS

BY ILLUMAPHONIUM

A mesmerising sky of light and sound dances overhead in response to the audience's every movement.

This large-scale, dazzling, interactive installation playfully explores the connectivity of art, light, nature and community, reminding us of our ongoing relationship with the cosmos, nature and each other.

THE JUDGES' LODGINGS

3

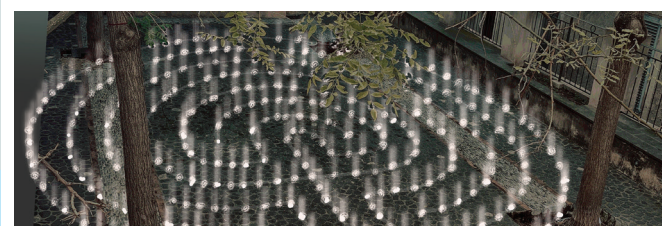

ANOTHER LEAP

BY IMITATING THE DOG

LEAP takes a joyful look at human communication and the science of the impossible.

Against the backdrop of the first moon landing, a story unfolds through projection mapping and song.

Back by popular demand, take Another LEAP into the unknown.

CASTLE GARDENS

4

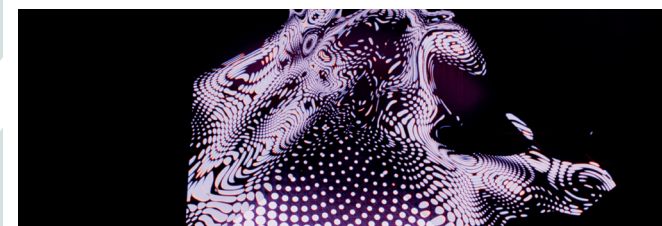

LABYRINTH

BY SHANE JOHNSTONE

A beautiful installation encouraging peaceful reflection in memory of lives shared and lives lost.

Unlike a maze, which is a puzzle designed to confuse us, the purpose of a Labyrinth is to guide.

One loses oneself in a maze but finds oneself in a Labyrinth.

LANCASTER PRIORY

5

DAYDREAM

BY NICK RAWCLIFFE, REBEKAH OKPOTI & JONATHAN HOGG

A kaleidoscopic journey into a parallel plane beyond the bounds of architectural space, exploring the essence of matter, the universe and everything...

With an original score, by Lancaster Priory's Director of Music, Rebekah Okpoti, inspired by the work of astronomer, William Herschel.

LIGHT UP LANCASTER

ARTWORKS + INSTALLATIONS

THURSDAY 7 NOVEMBER 5PM - 10PM
FRIDAY 8 NOVEMBER 5PM - 10PM
SATURDAY 9 NOVEMBER 5PM - 10PM

FOOD MARKET

CYCLE PATH

PUBLIC TOILETS

SUN SQUARE

10

DANCING FOUNTAIN

BY ALEXIS RICHTER & SUPERMASSIVE

Conceived by engineer and kinetic artist, Alexis Richter, The Dancing Fountain visualises sound in liquid form.

Using proprietary algorithms, a high-frequency pump and a hand-machined turbine, the fountain transforms music in real-time into a self-choreographed water dance.

NEW STREET SQUARE

9

SOLAR ECLIPSE

BY LUDUS DANCE

An immersive installation combining solar powered light art and movement.

A visually stunning, durational live performance which includes film, multi projection and light, exploring light and darkness, movement and stillness; digital projections and torch light.

MARKET SQUARE

8

MAGICAL NIGHT MARKET

Visit Market Square and enjoy the hot food, cakes and drinks on offer from a local street food market.

Grab your supper from the stalls or surrounding shops, sit in our outdoor dining space and enjoy live music throughout the night.

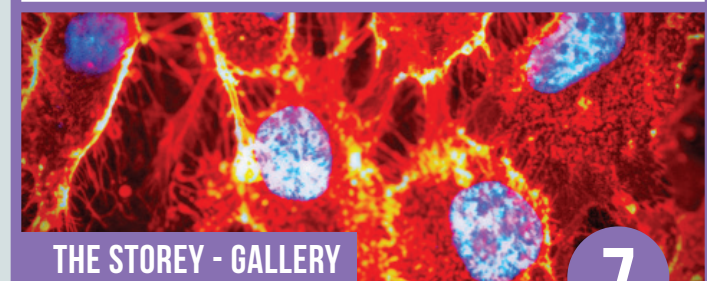

THE STOREY GARDENS

6

THE MATTER OF THE HEART

BY IDONTLOVEYOUANYMORE

A collection of Lancaster hearts. 100 people and their real-time heart beats. Wherever they are now, together or apart, far away or near the artwork, their hearts will remain in this space, flashing together, in perfect time with their real life heartbeat.

THE STOREY - GALLERY

7

IN MICRONS

BY IDONTLOVEYOUANYMORE & LANCASTER UNIVERSITY BIOMEDICAL & LIFE SCIENCES DEPARTMENT

A new interactive artwork made in collaboration with Lancaster University's Biomedical & Life Sciences Department. This work showcases the stunning microscopic images taken by biomedical researchers, scaling the images into otherworldly galaxies and inviting the audience to be engulfed by the very fabric of life.

THE STOREY - MUSIC ROOM

7

SHADOWPLAY

BY JOE LINDLEY & ROGER WHITHAM

Play with an AI-powered canvas to create video and music using the movement of your body. Start by casting a shadow, then AI takes over to produce an experience filled with surprises.

THE STOREY AUDITORIUM

7

THE STORAGE RING: ILLUMINATING SCIENCE

BY SIMON FLETCHER & JAMES SEWELL

SUPPORTED BY DIAMOND LIGHT SOURCE

Did you know the UK is home to a huge particle accelerator? The Storage Ring is a celebration of Diamond's place in the history of science, the breakthroughs that happen there and its aspirations for the future.

THE STOREY - READING ROOM

7

BROKEN RECORDS

THE PHANTOM'S PLAYLIST BY MATT TULLY

A darkly funny 'choose your own adventure' game. Can you release the spectre trapped inside the jukebox? Choose your timeline, encounter strange characters, and see if you can uncover the truth to set the spectre free. Good luck... you'll need it!

THE STOREY MUSIC ROOM

7

INSECT ARCHITECTURE

BY DR PHILIP DONKERSLEY, ELLIOT WALKER (BLOWFISH GLASS), SIMON FLETCHER

Bumblebees lead a secret life, their nests hidden from view. At Lancaster University, bumblebee nests are studied for conservation, evolution and bio-inspired engineering. This glass sculpture of a bumblebee nest sheds new light on the secret lives of bees.
